Re: WMXG (FM), Stephenson, MI  
Escanaba License Corp.  
Facility Identification Number: 51159  
Special Temporary Authority  
BESTA-20160929AJE

Dear Licensee:

This is in reference to the request filed on September 29, 2016, on behalf of Escanaba License Corp. ("ELC"). ELC requests a second extension of the October 8, 2016 Special Temporary Authority (STA) for continued reduced power operation. ELC anticipates completing transmitter work soon and restoring licensed operation.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

The request for STA extension IS HEREBY GRANTED. Station WMXG may continue to operate at reduced power, as needed. ELC must notify the Commission when licensed operation is restored. ELC must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

**This authority expires on April 4, 2017.**

Sincerely,

A handwritten signature in dark ink, appearing to read "Dale Bickel". The signature is written in a cursive, slightly slanted style.

Dale Bickel  
Senior Engineer
